Wedding Information Pack

Thank you for choosing Inlighten Photography.

Inlighten has quickly become known in the Sydney wedding industry as a leading studio thanks to our incredible passion for capturing beautiful images. As winners of "Best Wedding Service of NSW" you can be sure you will have a trusted photographer with the experience to capture your day as you always imagined.

Our Style, Your Memories

Natural, Candid, Stylish... in every sense. Inlighten Photography's approach is all about capturing the moments that make your day special. From your fathers face when he first sees you in your dress, to your mothers hug after the ceremony we will use our experience to tell your wedding story.

While the true essence of your day will come through in your candid images, we also love to fuse that with our fresh artistic approach which incorporates the locations you choose. This way, your collection of images will have a unique feel which you will always cherish.

The Team Working For You

Inlighten Photography is a boutique studio with a fresh, young, devoted team who all share a love of weddings. We offer only the finest service and we like to keep our approach very personal from the moment you first call or step into the studio.

Our commitment to our clients means you can be confident you have chosen the best.

Your Experience

With over 40 years experience in wedding photography, our photographers have the knowledge and passion to capture every precious moment of your wedding.

Choosing your wedding photographer is a big decision. Whilst a love of their work is very important, you must also feel comfortable with them. Your photographer will be a big part of your wedding day and your experience with us ensures you will meet and plan everything with your photographer.

Inlighten has been lucky enough to be a part of many types of weddings from Indian, Chinese, Italian, Greek, Catholic and Jewish, ranging in size from 6 to 600 guests. This exposure to diversity means our photographers know their limitations, and expectations, at every minute of the day.

Our Promise

In an industry as big as wedding photography, Inlighten Photography stands apart from the rest in every aspect.

*** Sydney's best photographers * Beautiful Wedding Albums * Captivating images**

We are committed to providing only the best quality which you will see from start to finish. We searched the country for suppliers as particular about excellence as us and as a result, you receive only the highest standard of products. Always.

Our clients love to visit our studio and relax with a glass of champagne on arrival, then sit back and enjoy looking at their breathtaking images.

Our photographers have a wealth of knowledge from their years of experience and have discovered it's the little things that can make a huge difference to your day. Our photographers carry sewing kits in their bags just in case; they know to be careful of your dress when you step out of the car so it doesn't rub on the freshly painted black tyres and they also look out for your Nan to help her down the steps of the church. Whilst you may never notice, this is proof of professionals.

Above all, Inlighten provides you with brilliant photographers who like to have fun. We blend in with the crowd and like to go unnoticed however; we will always capture the emotion, the joy, the love and the happiness of the best day of your lives.

Always there, hardly seen.

Photos as individual as you are.
